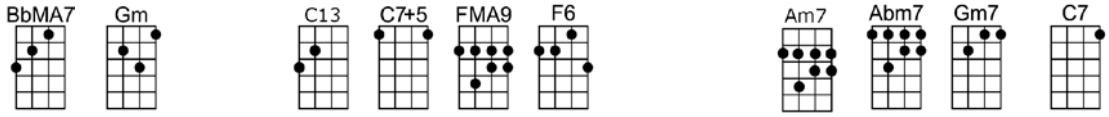
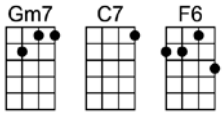
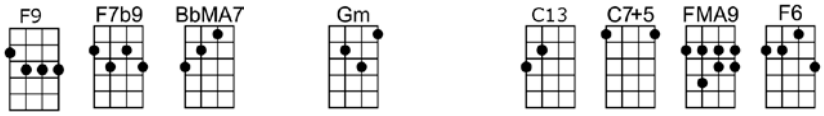
Intro: 



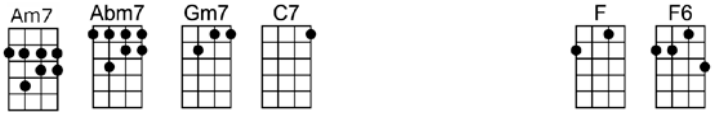
Candy, I call my sug - ar Candy, because I'm sweet on Candy,



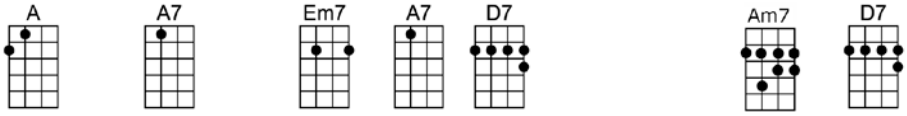
And Candy's sweet on me



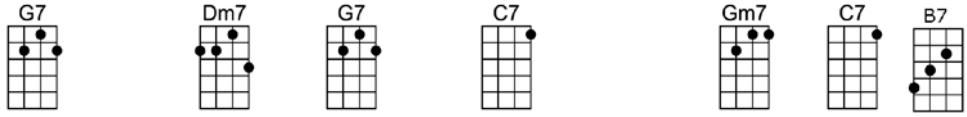
She under-stands me, my under-stand-ing Candy



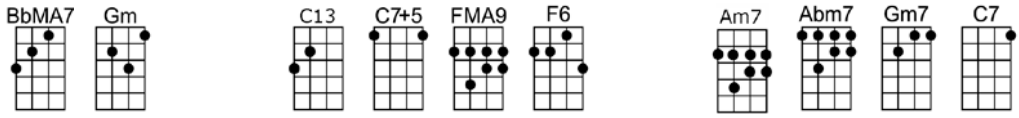
And Candy's al - ways handy when I need sympa-thy



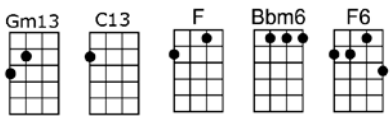
I wish that there were four of her so I could love much more of her



She has taken my com-plete heart, got a sweet tooth for my sweet-heart



Candy, it's gonna be just dandy, the day I take my Candy



And make her mine, all mine
