Love is all about chemis-try, isn't something you go off to school to learn

 |  |  |  |  |  |  |  |

Isn't math or ancient histo - ry, it's the kind of thing that comes down to simple terms

 |  |  |  |  |  |  |  |  |  |

It's not about you, it's not about me. Love is all about we, all about we

 |  |  |  |  |  |  |

Want to take you to that great un-known, show you to a place you've never been

 |  |  |  |  |  |  |  |

Down a road where only lovers go. But be-fore we leave, I wanna re-peat a-gain

 |  |  |  |  |  |  |  |  |  |

It's not about you, and it's not about me. Love is all about we, all about we
