

YOU'RE EVERYTHING I WANTED LOVE TO BE-Darrell Scott

4/4 1234 12 (without intro)

Intro: First four lines

There's a sadness, and I've heard it in the breeze,

There's a sorrow in the falling of the leaves,

There's an emptiness when you live your life a-lone

I'm so glad my lonely days and nights are gone

Now and then someone special comes along

Now and then someone brings your life a song

Now it's love I'm hearin' in the mornin' breeze

Oh, you're everything I wanted love to be

p.2. You're Everything I Wanted Love To Be

CHORUS:

And I'll love you 'til the closing of our days

And, yes, I'll need you through the valleys and the shadows, and the highways

And we'll put our feet up-on the path of life and its byways

And in the morning when I wake up by your side,

In the evenings, as we stand against the tide

Every hour that you're with me, I can see

You're everything I wanted love to be (repeat chorus and last verse)

You're everything I wanted love to be
