I get my energy from the sun, and I’m not the only one

And I feel better when I’m done. I get my energy from the sun

I get my oxygen from the air, there’s plenty for me, and plenty to spare

And I can find it any-where, I get my oxygen from the air

I plant my seeds in the howling gale, but the laws of nature still pre-vail

Look at the seasons, look at me, the apple didn’t fall far from the tree

And I get my water from the rain, and if it don’t rain I’ll die

Stormy weather saves my life. Sometimes I laugh, and wonder why
Instrumental verse

I get my water from the rain, and if it don’t rain I’ll die

Stormy weather saves my life. Sometimes I laugh, and wonder why

I get my energy from the sun, but I’m not the only one

And I feel better when I’m done. I get my energy from the sun

And I feel better when I’m done. I get my energy from the sun
