

LIGHTHOUSE - James Taylor

4/4 1...2...1234

Off the coast of Afri - ca, bound for South A-merica, a world away from here

Is a ship that sails the sea, is a man who's just like me, and I wish that I was there

I'm a lonely lighthouse, not a ship out in the night, I'm watching the sea

She's come halfway 'round the world to see the light, and to stay a-way from me

There is a shipwreck lying at my feet,

some weary refugee from the rolling deep

Ah, could you lose it all and fall for me?

Couldn't we shine? I'm rollin' all my golden moments into one

Like to shine like the sun for one more summer day

Like to shine like a lighthouse for one last summer night, flashing on, flashing, fading a-way

Well if you feel lost and lonely, and don't know where to go, and you hear this song on the radi-o

Or even if you're feeling healthy and strong, you might like to sing a-long

p.2. Lighthouse

But just be-cause I might be standing here,

That don't mean I won't be wrong this time

You could follow me and lose your mind

Couldn't we shine? Rollin' all my golden moments into one

Like to shine like the sun for one more summer day

Like to shine like a lighthouse for one last summer night, flashing on, flashing, fading a-way

Off the coast of Afri - ca, bound for South A-merica, a world away from here

Is a ship that sails the sea, is a man who's just like me, and I wish that I was there

I'd like to shine like the sun for one more summer day

Shine like a lighthouse for one last summer night, see me flashing on, flashing, fading a-way

See me flashing on, flashing, fading a-way
