ONCE I WALKED IN THE SUN

4/4 1...2...1234

-Will Jennings/Ivan Guimares Lins

INTRO: |  |  | (X2)

   
Once I walked in the sun, you told me I was the one
All you left me is a song, I sing it now that you've gone

    
Who made this life so it is worth the sorrow
At least love in the songs, lasts for-ever

    
You said you felt the same, you reached out and whispered my name
Music only sur-vives, in the melody we're a-live

   
1. Promis - ing me to-morrow (2nd verse)

     
2. Feeling it all to-gether, living inside a song

      
When we made love, what a perfect world we made to-gether

       
When we made love, how I wished that life went on and on

Once I walked in the sun, once I walked in the sun

       
I feel the light until my life is done

p.2. Once I Walked In the Sun

Lovers dance by the sea, and they're always you and me

And music soft as the night falls a-round us

Hope you're watching the stars, and the moonlight falls where you are

One time the music found us, one time we made a song

When we made love, what a perfect world we made to-gether

When we made love, how I wished that life went on and on

Once I walked in the sun, once I walked in the sun

I feel the light until my life is done

Once I walked in the sun, once I walked in the sun

I feel the light until my life is done

Once I walked in the sun, once I walked in the sun

I feel the light until my life is done
