4/4 1...2...1234 (slow count)

**Intro: | D A | Bm G | (X2)**

**D                    A                    Bm                    G**  
 Sometimes I lay under the moon, and thank God I'm breathing

**D                    A                    Bm                    G**  
 Then I pray, "Don't take me soon, 'cause I am here for a reason

**D                    A                    Bm                    G**  
 Sometimes in my tears I drown, but I never let it get me down

**D                    A                    Bm                    G**  
 So when negativity sur-rounds, I know some day it'll all turn around because...

**D                    A                    Bm                    G**  
 All my life I've been waiting for, I've been praying for, for the people to say

**D                    A                    Bm                    G**  
 That we don't wanna fight no more, there'll be no more wars, and our children will play

**D                    A                    Bm                    G                    D                    A                    Bm                    G**  
 One day, one day, one day.      One day, one day, one day

**D                    A                    Bm                    G                    D**  
 It's not a-bout win or lose. We all lose when they feed on the souls of the innocent,

**A                    Bm                    G**  
 Blood-drenched pavement, keep on moving, though the waters stay raging

**D                    A                    Bm                    G**  
 In this maze you can lose your way, your way

**D                    A                    Bm                    G**  
 It might drive you crazy but don't let it faze you, no way (no way)
