Intro: |    |     | (X4)

   
Ever since I met you, seems I can't for-get you
   

The thought of you keeps runnin' through the back of my mind
   
Every time I'm near you, I get that urge to feel you
   

Just touchin' you, and lovin' you, makes everything right

      
I never knew love be-fore. Then came you, then came you
      ()
I never knew love be-fore. Then came you, ooh, then came you

Interlude: (      ) (X2)

   
Now that I have found you, how did I live with-out you?
   
It's plain to see you're all I need to satisfy me
